# TARRANT COUNTY COLLEGE

---

---

For 50 years, Tarrant County College (TCC), originally Tarrant County Junior College, has provided access to affordable post-secondary educational opportunities for individuals in the North Texas region. TCC's primary goal is to be a "student-ready" college that meets students where they are through offerings from literacy education and training to its highly acclaimed, accelerated Cornerstone Honors Program.

TCC differentiates itself from other area higher education institutions through its commitment to access and value.

*Access:* TCC enrolls more than 100,000 credit and non-credit students annually in 110 degree/certificate programs. There are six campuses within the College District, including a robust on-line "virtual" campus; multiple learning centers and, intensive workforce education programs that address the dynamic employment needs of area business and industry. TCC is the sixth-largest higher education institution in Texas and one of the 20 largest in the nation.

*Value:* Each year, one out of every 18 Tarrant County citizens enrolls in a course at TCC, and TCC ranks ninth in the nation for the total number of associate degrees awarded annually. Remarkably, 89 percent of TCC graduates remain, live and work in Tarrant County after graduation.

---

---

## TCC FOUNDATION

---

---

The Tarrant County College Foundation raises philanthropic contributions and endowed funds in support of the students and programs of Tarrant County College. Nearly half of TCC's students are the first in their family to pursue a college education and have median annual household incomes of \$25,000. Through the establishment of scholarships and programs to assist TCC students, TCC Foundation helps to ensure that the region's next nurses, first responders, teachers, automotive technicians, welders, construction workers and managers, small business owners, computer programmers and aviation technicians have the financial resources needed to complete their training and education.

TCC's commitment to access to postsecondary learning, the success of students and its economic impact on our region are fueled by the College's ability to support students while in college and help others prepare for college through pre-collegiate afterschool and summer programs. TCC Foundation is governed by a board of directors consisting of individuals representing a cross-section of business and community leaders.

We thank each of you as well as our many business/industry and private foundation partners for your support of TCC South Campus' 50th Year Anniversary Celebration. TCC Foundation salutes this remarkable milestone achievement.

## STATEMENTS OF GRATITUDE

---

---

Here's a representative sample of statements from three among thousands of very grateful students who have benefited from scholarships and the collegiate preparation of TCC's Generation Hope Afterschool STEM program that are funded through generous gifts to the TCC Foundation.

**Daniel Almazan** has a 4.0 GPA, is a member of the Phi Theta Kappa National Honor Society and is the recipient of the HVAC Scholarship. "It is an honor to be the recipient of this valuable scholarship," states Daniel. "This is a gift not just for me, but for my parents as well, who will continue to see my college education as a foundation for a bright future, without carrying the financial burden of it. I am grateful."

*Continued on the back page*

---

## STATEMENTS OF GRATITUDE

---

**Sykea Brinkley** will pursue a double major in Fashion Design and General Business following earning her AA degree at TCC's South Campus. She is the recipient of the TCC Foundation Scholarship. "Thank you for believing in me, she said. "I will not let this opportunity to shine go in vain. Look for me in the near future...the world will be seeing and hearing great things from me because I have received a great deal of support. Having been selected to receive this scholarship award I have been provided more than money... I have been given hope."

**Pamela Hernandez** was a student at Baxter Junior High (Everman ISD) when she joined the Generation Hope Afterschool STEM program. She went on to Joe Bean High School and graduated in the top 15percent of her class. Today, she is a junior at UT Arlington pursuing a degree in Early Childhood Education. Pamela says: "Generation Hope started my interest in technology in 8th grade. It...provided me [with] a guideline as to how I should approach school as well as the importance of getting an education. It inspired me to keep working hard; that hard work does pay off!"

# RSVP

**REPLY BY MARCH 15**

Name \_\_\_\_\_

Address \_\_\_\_\_
