“I chose to graduate from TCC with a degree because I wanted to have representation of the hard work that I accomplished while completing my prerequisites.

I believe an associate’s degree or certificate from TCC is something worth investing in and definitely something to be proud of.”

“Completing my degree helped give me a sense of achievement and confidence in my capabilities. Sometimes throughout your academic career, graduating with your bachelor’s seems so far in the future and unreachable. However, completing my associate’s degree gave me a lots of reassurance and motivation to continue and finish my bachelor’s degree.”

“Being the first in my family to graduate college was a new stepping stone for me. There are no words to express how proud I was of how far I came and how this journey was only the beginning. Now that I have my degree, I moved up positions at the company I work at.

Completing a certificate or associate’s degree is the best thing a student can do for themselves. The hard work, perseverance, and learning the student goes through will eventually pay off.”
